Refer to Section 11 – Toxicological Information

Indication of any immediate medical attention and special treatment needed.

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

SECTION 5 – FIRE FIGHTING MEASURES

Suitable extinguishing equipment:

This material is noncombustible.

Extinguishing equipment that is not appropriate for a particular situation:

Do not use water on adjacent fires. Extinguish adjacent fires with dry chemical or CO₂.

Specific hazards that develop from the chemical during the fire:

No specific hazards are identified.

Protective equipment or precautions for firefighters:

No special measures required.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Wear protective equipment to prevent skin exposure and inhalation. Keep unprotected persons away.

Environmental Precautions:

Avoid runoff to waterways and sewers.

Methods and materials used for containment and cleanup:

Use appropriate protective equipment while using dry cleanup methods (sweep/shovel) which minimize dusting. Reclaim in watertight containers. Small amounts may be flushed with water to drain.
